The ELBERTON

Individuality marks every line of the Elberton, and in the floor plans not a single modern idea has been omitted.

Three other floor plans on request.

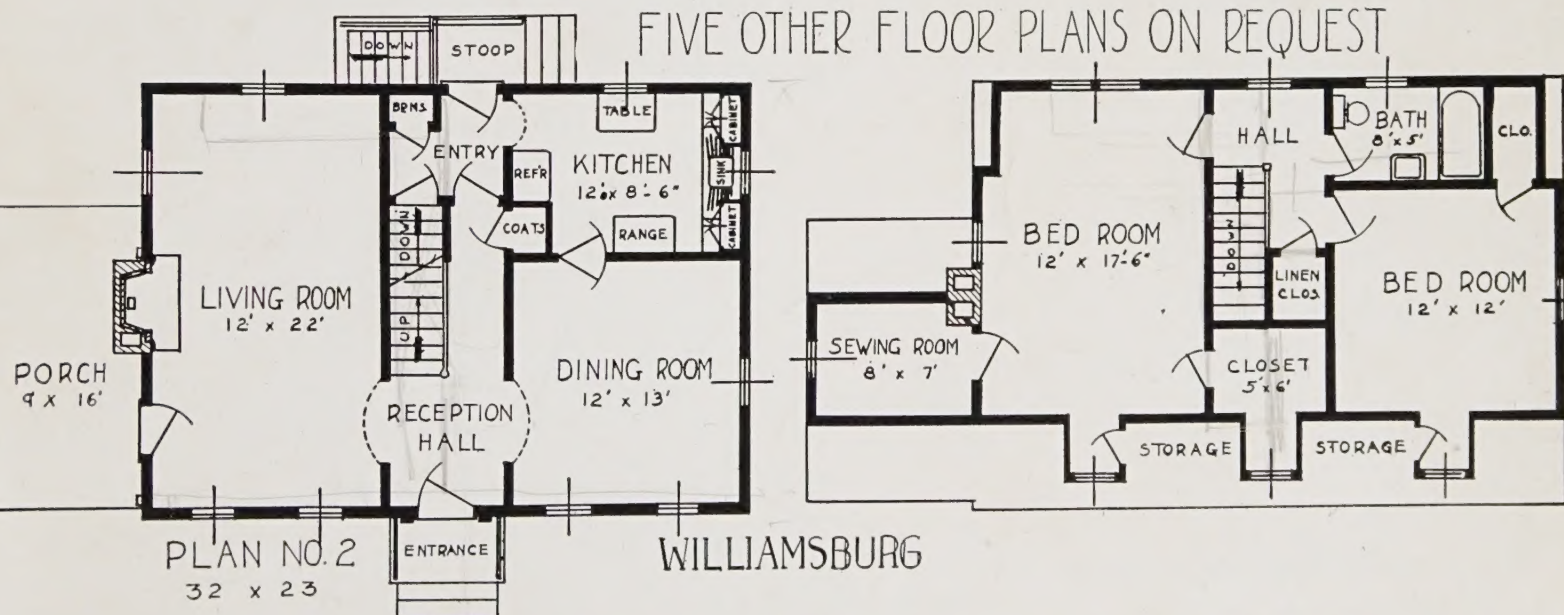

Our Plans and Specifications Meet the Rigid Requirements of all Home Loan Companies.

The WILLIAMSBURG

Painted Brick

A true copy of the Williamsburg Colonial type of cottage which Mr. Rockefeller, Jr., has spent so much at Williamsburg, Va., to restore.

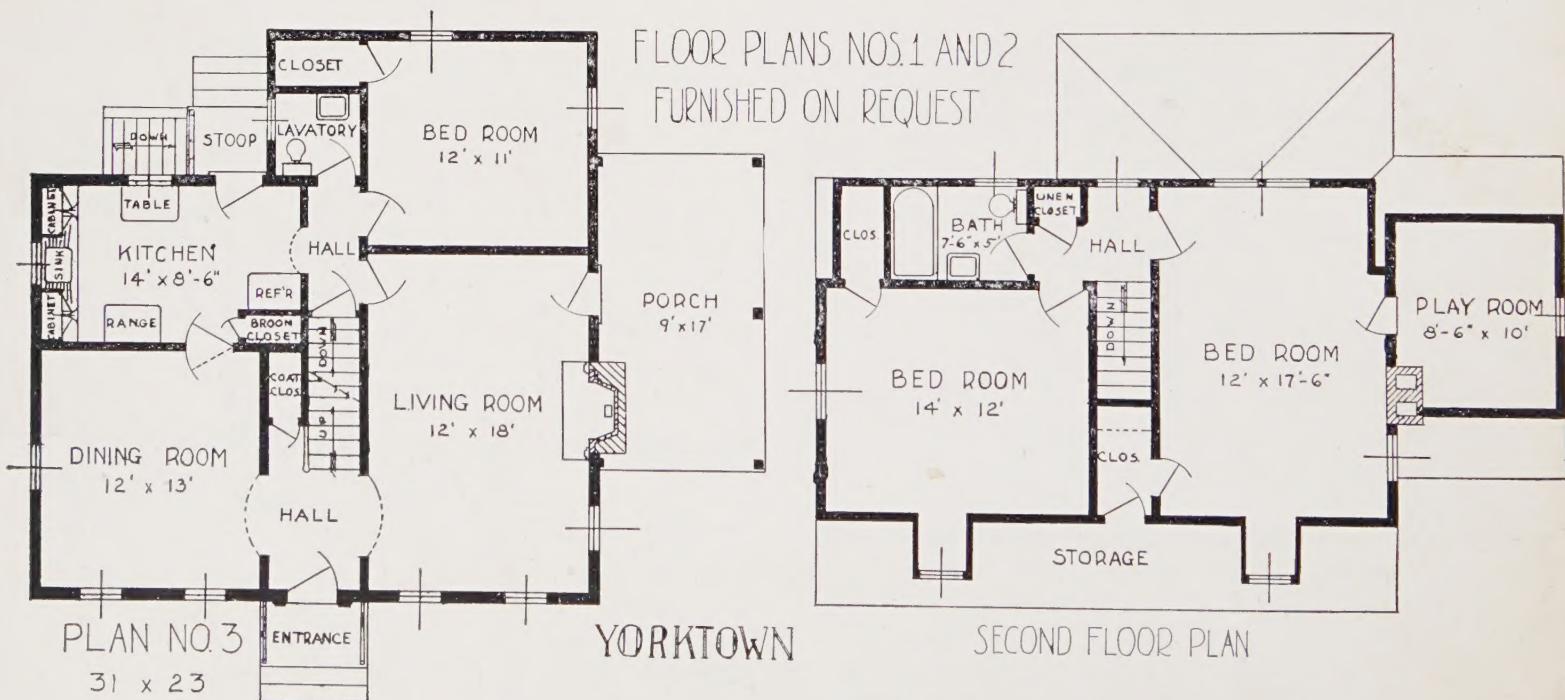

Because our house designs are types that do not go out of style for a lifetime, they have the highest loan value as well as the highest resale value.

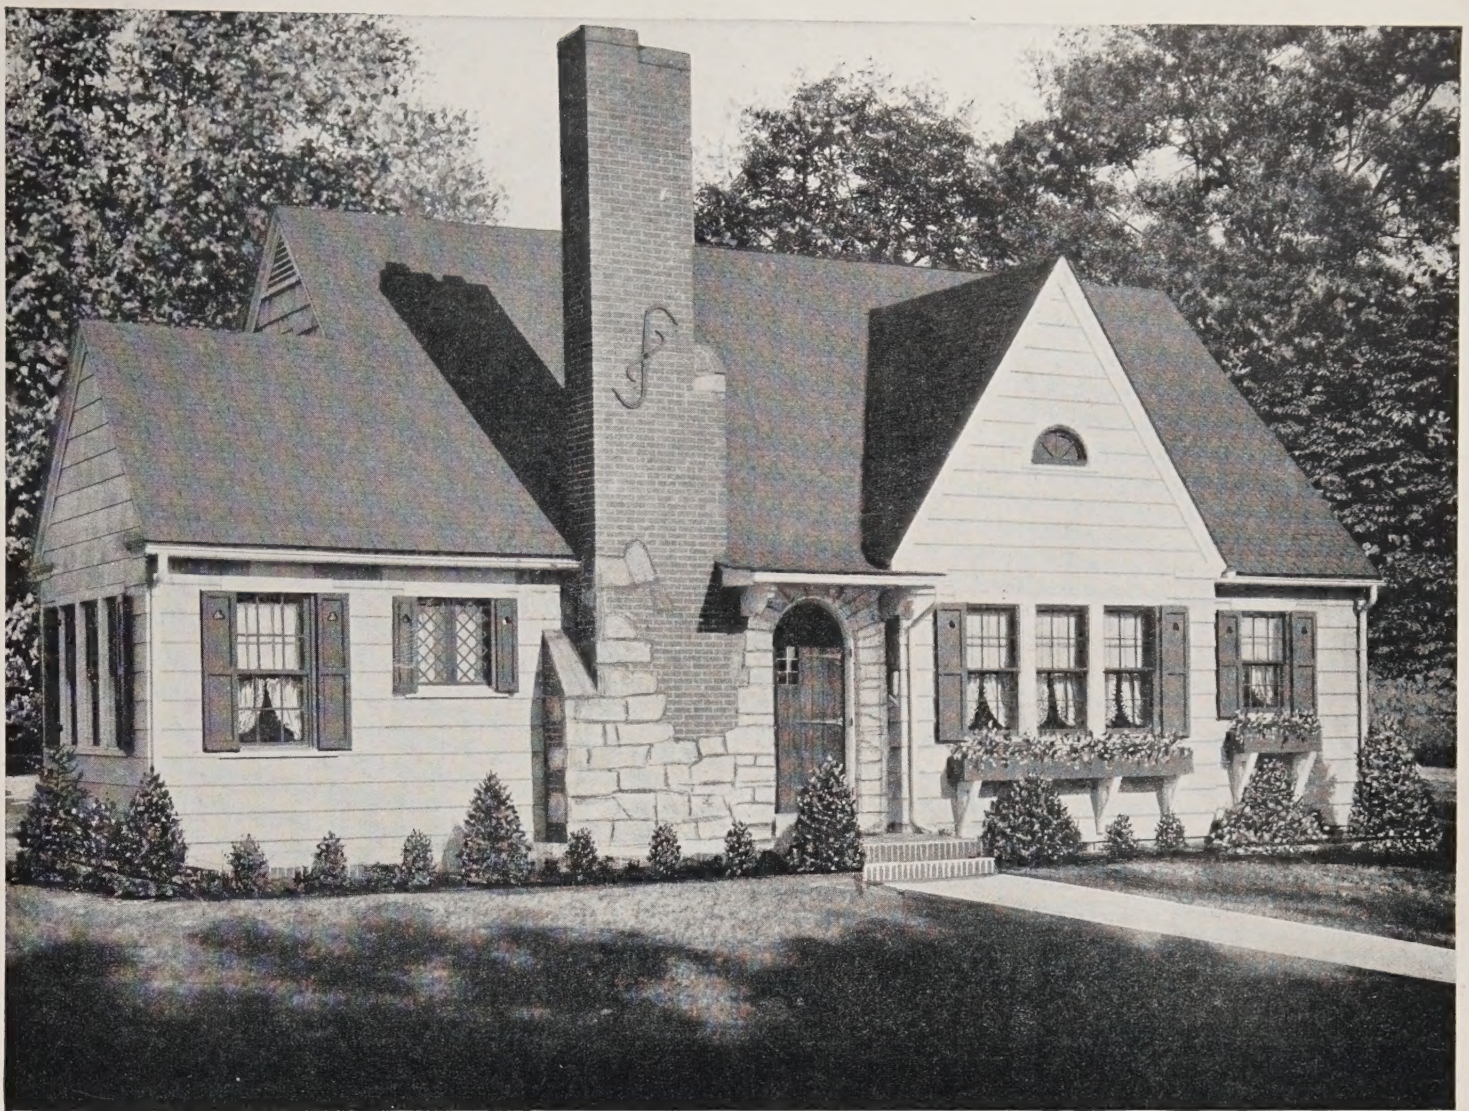

Painted Brick

The YORKTOWN

For exactness in Colonial architecture, the Yorktown stands side by side with the Williamsburg, and we offer it with any Williamsburg floor plan.

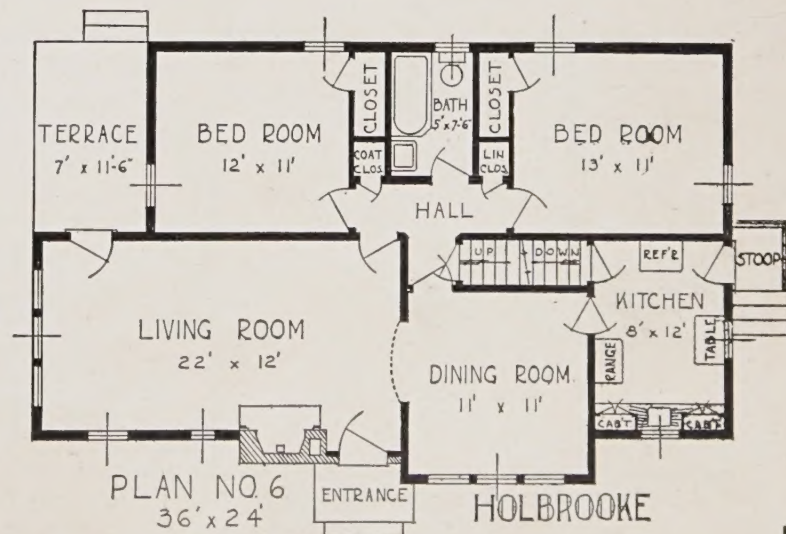

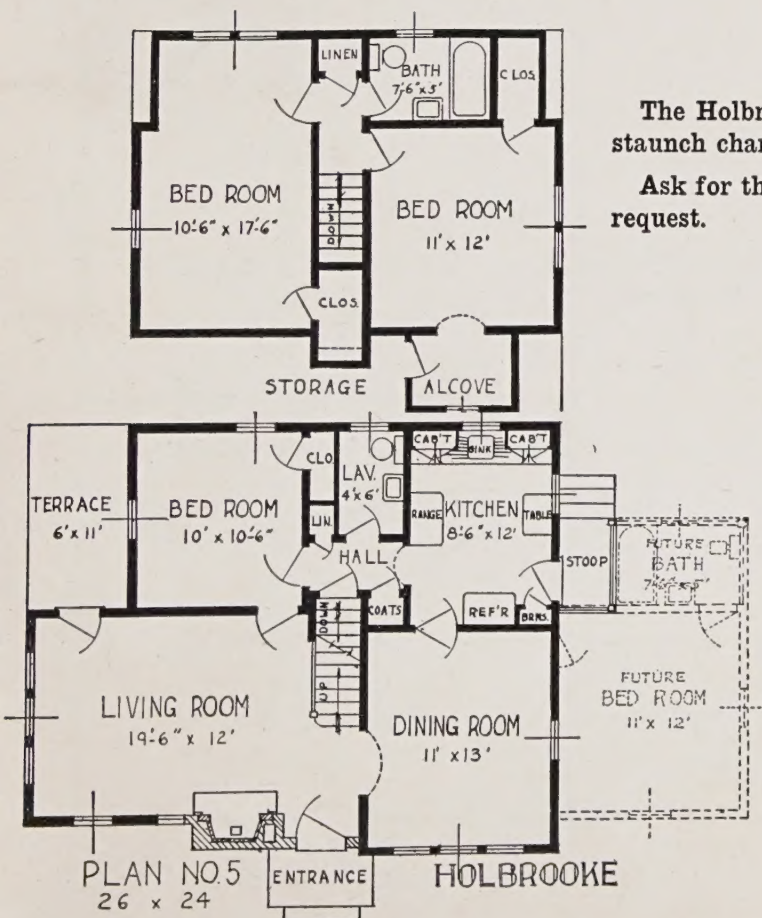

Brick or Frame

The HOLBROOKE

The Holbrooke is a new English design with unusual charm and staunch character.

Ask for three other floor plans. They will be furnished gladly on request.

Ample space on second floor for two large rooms and bath.

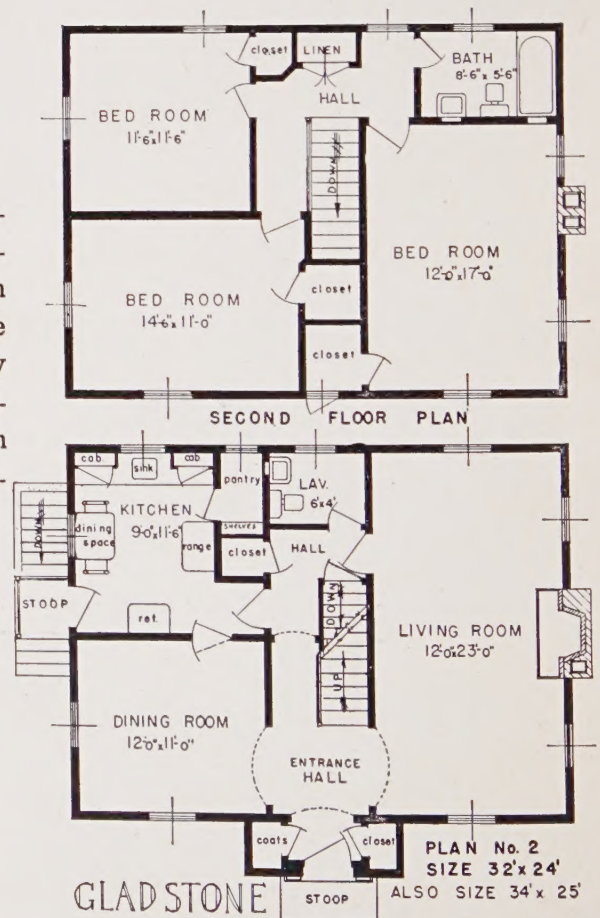

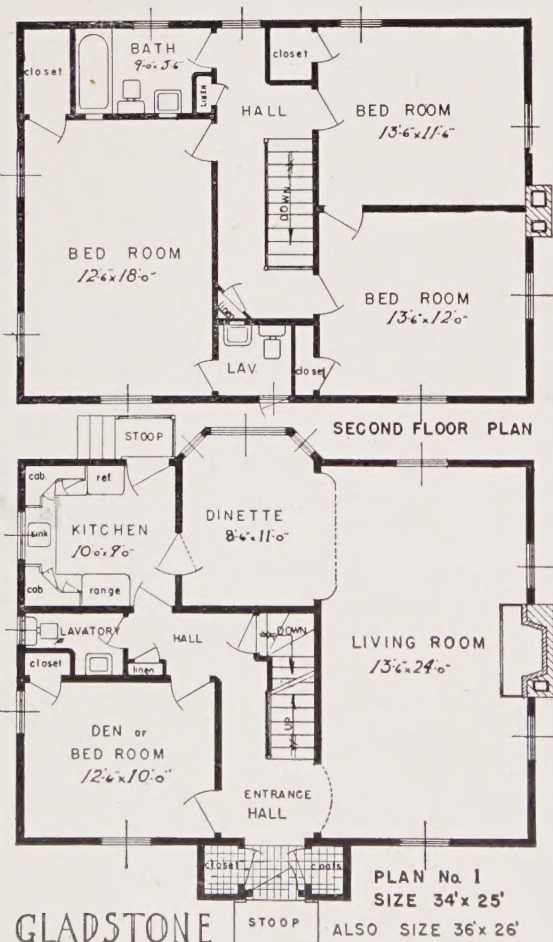

The GLADSTONE

It is only once in a generation that some home-lover dreams out a design like the Gladstone. Here in a straight two-story brick is polish and refinement seldom found in homes even near its construction cost.

Permanent and substantial beauty is expressed in every line of the Delaware. It is typical of the oldest and best loved homes in America.

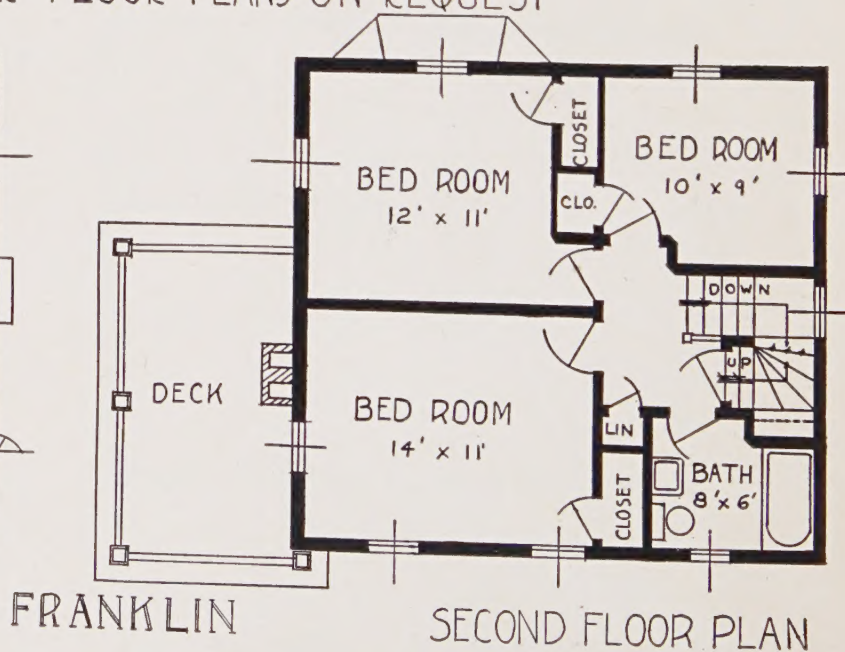

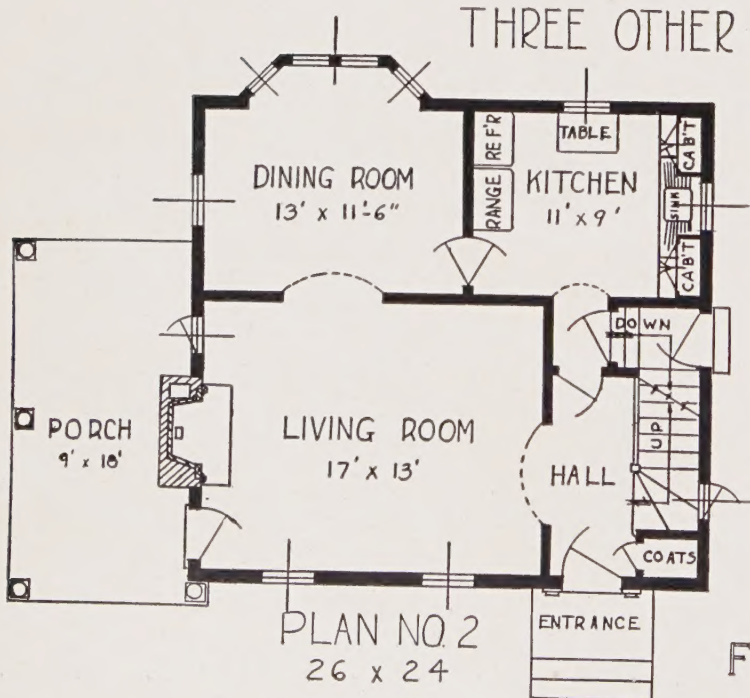

Our Standard Specifications Cover Every Item of Cost from Foundation to Roof, and give the inexperienced builder a new conception of good construction.

The FRANKLIN

For its dimensions the Franklin cannot be surpassed as a small Colonial. Everything has been added that will mean home joy for a lifetime.

THREE OTHER FLOOR PLANS ON REQUEST

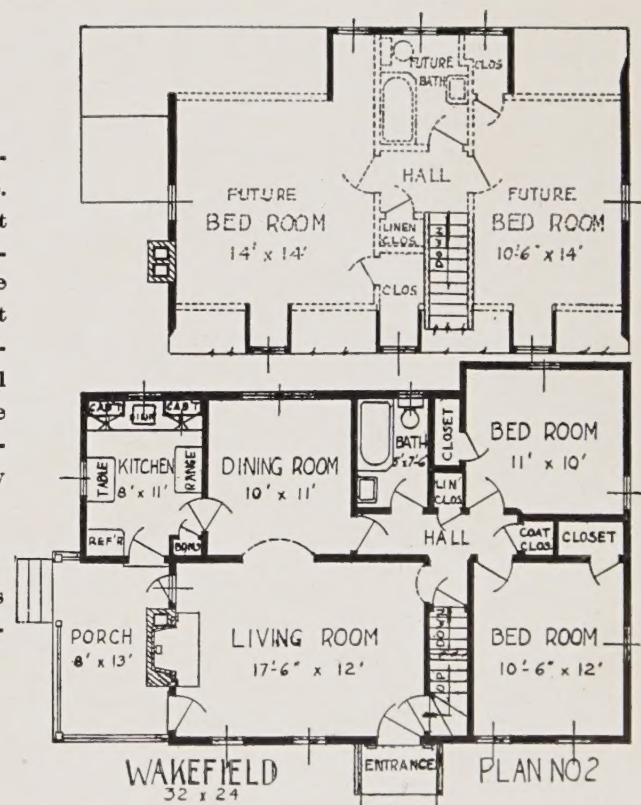

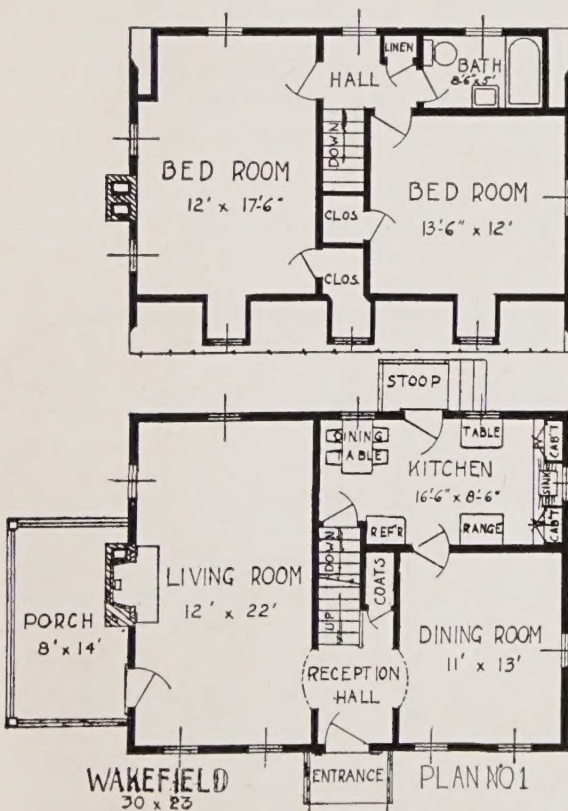

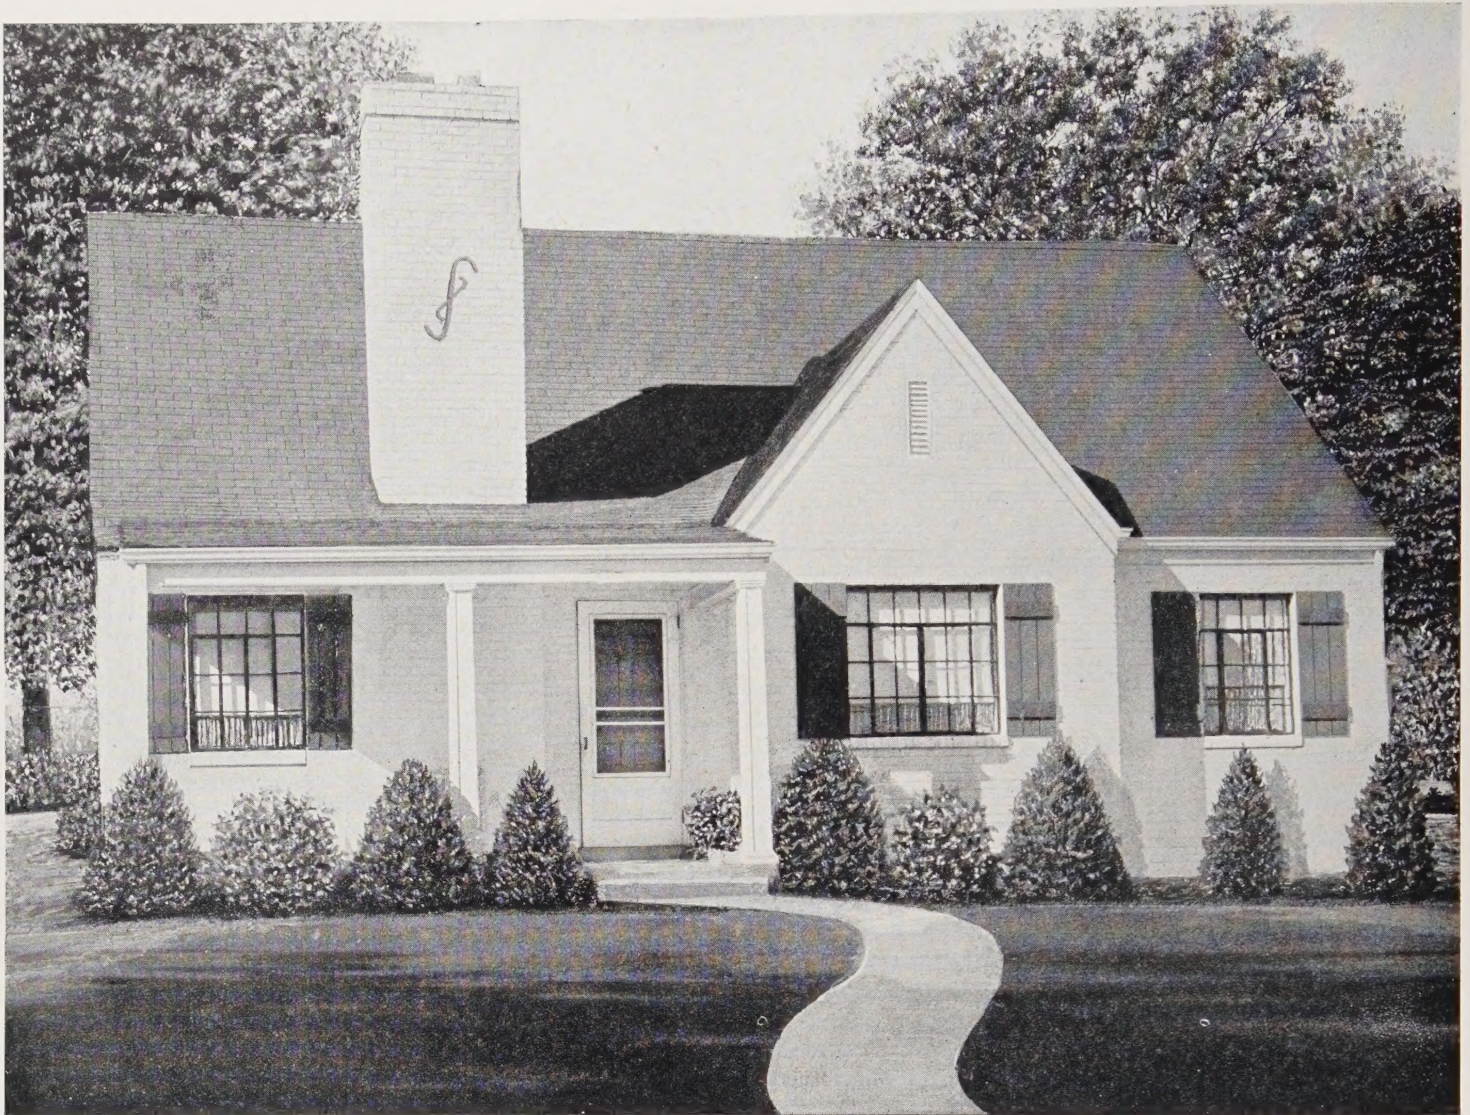

The WAKEFIELD

The Wakefield is a masterpiece in architecture. Its individuality causes it to stand alone in any community as a home of rare grace and permanent beauty; and yet its construction cost is well within the means of those contemplating the erection of a moderately priced home.

The Hampton is a happy combination of clever designing and thorough knowledge of sound construction. It is and will remain decidedly different.

The NORTHBROOK

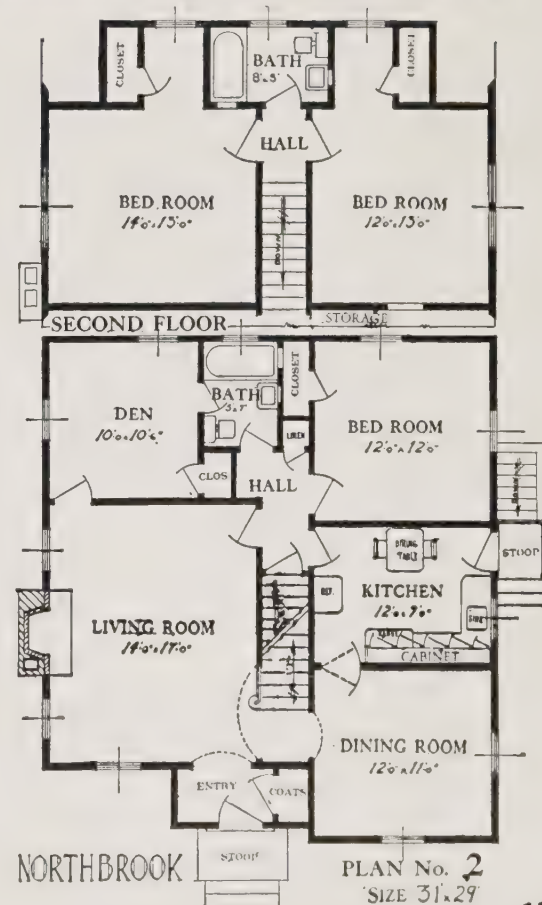

It required years of artistic thinking and exactness of purpose to produce a home of such proportions as The Northbrook.

We do not show attached, detached or built-in garages, because a garage will, as a rule, cost as much as an extra room, yet will add little or nothing to the loan or sales value of a home.

The Owner must put in more of his own cash if a garage is required.

Two other plans on request.

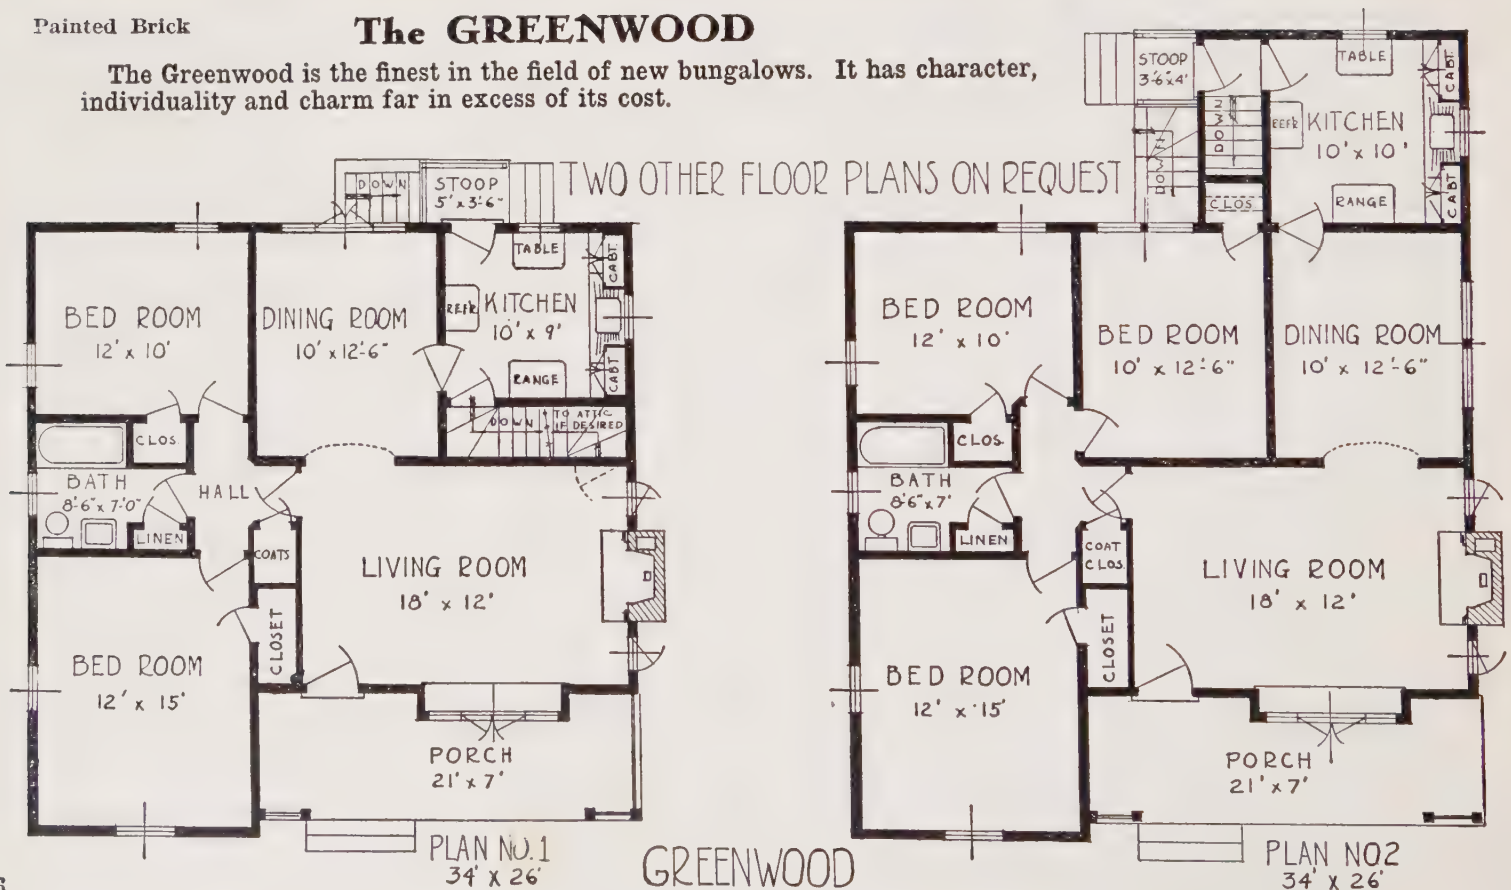

Painted Brick

The GREENWOOD

The Greenwood is the finest in the field of new bungalows. It has character, individuality and charm far in excess of its cost.

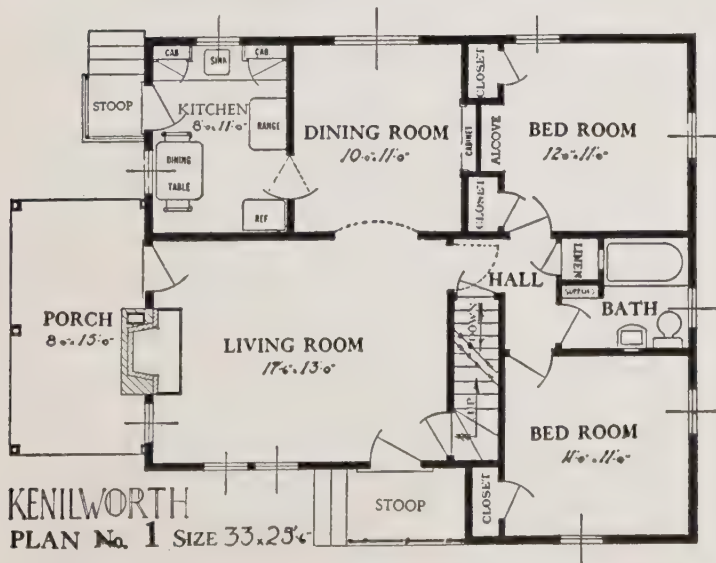

At this time—the beginning of 1946—Brick construction runs

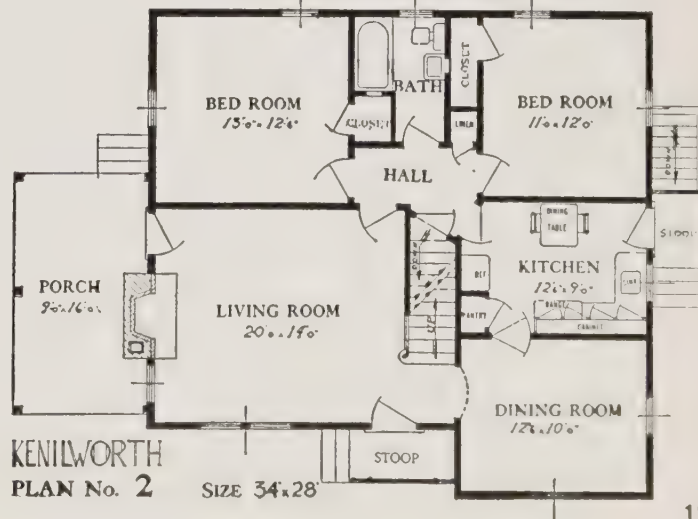

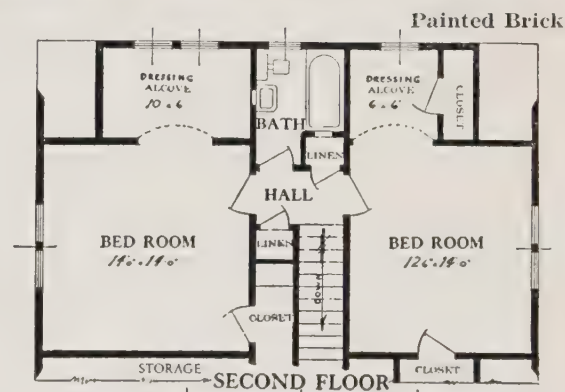

The KENILWORTH

The Kenilworth is kindly, as well as lovely. It suggests refinements of every nature, not only good clean construction but cleanliness and peace in the home life.

The second floor plan for No. 1 is practically the same as No. 2.

about the same as Frame, as an itemized cost estimate will show.
